FOREWORD

Purpose

In recent years the growth of special education training programs in higher education has been accelerated. The increase continues unabated, and in the course of such movement, a pressing need for knowledge about the existence of programs and personnel has become urgent. This directory is designed to fill this need and integrate significant information concerned with college and university special education programs and teacher education personnel. It is intended to serve the following purposes:

1. As a resource in programing and planning for The Council for Exceptional Children, as well as the Teacher Education Division and other CEC divisions.
2. To provide high school and college guidance counselors with information that will assist them in their work with students who are interested in the education of exceptional children.
3. To provide public and private agencies with information on university programs and personnel in order to assist in their work with exceptional children, i. e., schools, child guidance clinics, residential facilities, state departments of special education, federal agencies, etc.
4. To enhance communication among professionals and between professionals and the general public.

Organization

The directory is organized into three major classifications:

School Index—listing of university programs and personnel according to states
Personnel Index—biographical listings for all special education faculty
Program Index—cross reference index for expediting a search for specific information

The School Index is divided according to states with college and university programs listed alphabetically. The program areas are presented along with the number of faculty members in each area of special education, the levels of study available in the areas listed, and the number of students. Following this information is a listing of the faculty members involved in the programs.

The Personnel Index is devoted to a listing of all the faculty included in the Directory and relevant biographical information. The information, in sequential order, includes name, code number of the employing school, administrative titles and academic rank, highest degree obtained, major area of study for degree, the university from which the degree was obtained, the year the degree was awarded, major work areas, any additional supervisory responsibilities, and all CEC divisional affiliations.

The Program Index provides a reference in utilizing the Directory to identify pertinent information concerning the schools at which an individual can obtain a degree and/or certification in particular areas of study.

Acknowledgments

The process of bringing this Directory to print has been an enormous task. Appreciation for assisting in the venture should be expressed to the members of the committee—Alan Abeson, James Billingsley, Arnold Fassler, Shirley Holmfield, June Jordan, Bobby Palk, Keith Stearns, William Tisdall, and the co-chairman of the project, Gloria Wolinsky. Special commendations are due to William Geer for his encouragement, June Jordan, who guided the committee in its efforts, and Alan Abeson and Suzanne Gordon who assumed task of bringing the Directory to fruition.

The program information tells the areas of study available at the school, the levels of study, and the number of fulltime personnel in each area. Abbreviations used for areas of study and degree levels are:

ADM	Administration
HH	Deaf and Hard of Hearing
EH	Emotionally Handicapped
G	Gifted
EMR	Educable Mentally Retarded
TMR	Trainable Mentally Retarded
PH	Physically Handicapped
SLD	Special Learning Disability
SPCH	Speech Handicapped
VH	Visually Handicapped

U	Undergraduate major or minor
M	Masters major or minor
PD	Professional Degree
Ph D	Doctor of Philosophy
Ed D	Doctor of Education
CERT	State Certification

Program Enrollment 250	This figure indicates the approximate number of graduate and undergraduate students within the special education department.
Speech Pathology part of another unit Vocational Rehabilitation part of another unit	Since some programs or study areas—such as Speech Pathology and Vocational Rehabilitation—within the broad field of special education are offered outside of the special education department at some schools and as part of special education at others, their status is indicated as "autonomous unit," "part of another unit," or "part of special education." When an area of study is not offered in the special education department, the information on enrollment and personnel for that area is not included in the Directory.
Harvey, Jasper, Chairman *Special Education Department* Dietrich, Wilson L. Evelsizer, Ronald L. Lambright, Carolina G., Miss Linkous, Ludrick W. Russell, Tommy Styles, Daisy M., Mrs.	In the personnel listing, the department head is listed first, and the full-time personnel follow in alphabetical order. (Biographical information for all personnel is contained within the Personnel Index section of the Directory.)

PROGRAM INDEX

This section of the Directory refers the reader to those schools which offer programs in each of the areas of exceptionality and indicates the degree levels available in each area at those schools. The major breakdown is by areas of study (i.e., Administration, Deaf and Hard of Hearing, Emotionally Handicapped, etc.). Following these headings are headings indicating the various degree levels (Undergraduate, Masters, etc.) and the code numbers of each school offering those degrees in the study areas indicated.
